## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment and remarks filed June 7, 2007, are noted with appreciation.
2. Claims 1-12 and 16-20 remain pending.

### ***Response to Arguments***

3. Applicant's arguments, see the remarks, filed June 7, 2007, with respect to the claim objections and rejections under 35 USC 101 and 112, set forth in the prior Office action (02/07/2007) have been fully considered in view of the amendment and are persuasive. These objections and rejections have been withdrawn.
4. Applicant's arguments filed June 7, 2007, with respect to the prior art rejections set forth in the prior Office action (02/07/2007), have been fully considered but they are not persuasive.

A. With respect to the combination of Bujard and Pelzig, Applicant argues that Pelzig fails to teach or suggest a textile substrate. The Examiner disagrees. At 2:36-37, Pelzig clearly teaches: "The color transfer material is capable of printing on paper, canvas, fabric and wall." At 6:62-64, Pelzig further teaches: "...allowing the invented material to come into contact with a suitable surface, such as paper, painted wall, canvas or other failure." As such, Applicant's arguments are not persuasive.

### ***Claim Rejections - 35 USC § 103***

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 1-3, 6-12, and 16-20, are rejected under 35 U.S.C. 103(a) as being unpatentable over Bujard et al. (US 5,766,335 A) in view of Pelzig (US 4,956,404 A).

A. These claims are rejected for the same reasons set forth under this heading in the prior Office action (02/07/2007).

B. As noted above and in the prior Office action (02/07/2007) and above, Pelzig suggests textile substrates at 2:36-37 and 6:62-64.

***Allowable Subject Matter***

8. Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. The following is a statement of reasons for the indication of allowable subject matter: these reasons remain the same as set forth under this heading in the prior Office action (02/07/2007).

***Conclusion***

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

11. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
